- I. English language teaching has experienced many changes and challenges since its formal inception as a separate field of education. Globalization and the recent pandemic create many issues now starkly confront English language institutions, schools and teachers. Many teaching practices are now under review and being challenged. Please select three of the following current issues in language education to express your understanding. Please define the term first and then explain its effects or influence on English language teaching in Taiwan. (60%)
1. Native speakerism
 2. Educational technology
 3. Gamification
 4. Multimodality
 5. Translanguaging
 6. Bilingualism
 7. Content and language integrated learning
 8. English for specific purpose
 9. English as a medium of instruction
 10. Immersion program
- II. Globalization has promoted English language education and recently bilingual education. The ultimate goal is to cultivate global talent and equip them with global competence. Please address your points of view in responding to the bilingual policy of Taiwan. In other words, what is the role of English teacher under the bilingual policy? How English education in Taiwan addresses this trend? Any necessary modifications need to be made in responding to the goal of cultivating bilingual competence? (40%)
