## IV. Composition 30 %

From working mums to role models, women have been campaigning for equality of the sexes for much of the last century. The following statistics provided by a London-based magazine reveal the many facets of modern women.

- More than 50% of women with young children now go out to work, double the rate of 25 years ago.
- Women still do five times as much housework as men—even women out at work do three times the amount.
- 3. Women are more likely to have to take a break from their career to care for an older relative.
- 4. For each pound earned by a man in full-time work, women earn 80 pence.

What is your view toward the status of modern women in our society? Please write a short essay to describe the image of modern Taiwan women and the role they play in the society.
